1 Introduction

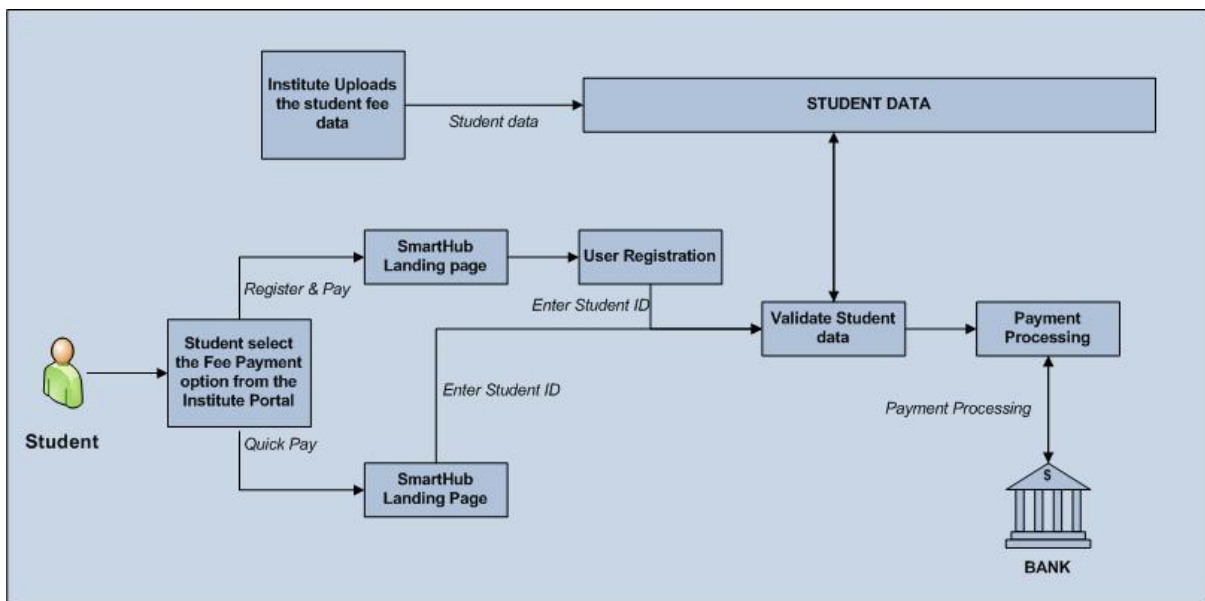

SmartHub is a next generation payment processing platform which enables the institution to offer parents and students a wide range of payment options. Uniqueness about the platform is that one need not have an education ERP or own a student application. The design allows one to upload the course content and the respective fees on to the portal, enabling the institution to offer fee payment services online.

2 SmartHub – transaction portal

Depending on the payment type selected by the institute the screen will be displayed with Institute logo.

There are 2 payment types provided

1. Quick pay
2. Register and pay

2.1 Quick pay

QUICK PAY
